5 **Rate Riders**
 \$ 29.73* |

Local access fee paid to CALGARY
 \$ 16.21* |

Summary
 \$ 167.03 |

AV COST / DAY \$4.91

- 1** Sum of all utility charges over billing period, including: electricity, natural gas, waste, water treatment and recycling
- 2** Monthly electricity usage over billing period in kilowatt hours (kWh) – **please use annual average of this figure as input to the solar calculator**
- 3** Charges and credits from Electric Retailer:
 1. Energy charge – the price you pay for the energy you have consumed over the billing period. Consumption in kWh and rate in \$ per kWh are also displayed, multiplication of these produces total energy charge.
 2. Administration Charge – fee to cover internal costs of retailer, fees are calculated in \$ per day.
 3. Microgeneration Credit – if you have solar installed and generate a surplus of energy ENMAX will purchase this back from you at the same electricity rate.
- 4** Wire Service Provider (WSP) charges and credits:
 1. Distribution Charge – composed of a fixed (\$/day) and variable (\$/kWh) charge
 2. Transmission Charge – is a variable charge based off of consumption in \$ per kWh.
 3. Balancing Pool Allocation – a legislated fee that balances payments from Power Purchase Agreements (PPAs). Can be a credit or charge.
 4. Rate Riders – accounts for differences between actual cost of electricity and approved rate for service. Can be a credit or charge.
- 5** Local Access Fee (LAF) – a fee charged in agreement with The City of Calgary that applies to all electric services within the city. This is a variable charge based off of your distribution and energy charge tariffs.
- 6** Graph of historical energy use in kWh
